NINE WEEKS TO NAPLAN

Yes it's true, nine weeks to NAPLAN testing for all schools. NAPLAN stands for National Assessment Program Literacy and Numeracy. This testing is important to our school and students. It is how our school and students are measured against all other schools and students.

In the lead up to NAPLAN our students will do practice questions and tests to assess where they currently sit in terms of NAPLAN and to investigate where more focus needs to occur.

I am very pleased to say our current attendance rate is at a fairly high rate overall, however some individuals could be more consistent. Students whom attend school everyday will have every opportunity to succeed and learn the curriculum content required to be taught. Please have your children at school everyday. Everyday counts.

STUDENTS LEARNING AND ASPIRING TO BE GREAT LEADERS

This week I facilitated the first student leadership group meeting. The program is for students who wish to improve their capability as a leader in our school and learn lots about themselves and the role of a leader not only in our school but also our school community. Any student can nominate themselves or be nominated by a teacher or staff member to become involved in this group that meets once a week. I strongly encourage those students who intend nominating leadership positions within the school to be involved in this group. Students who have received a yellow or red card in 2014 are not eligible to take on a leadership roles within Eidsvold State School in 2014.

Kind regards
